COVID-19 Additional Planning

Dear Parents/Guardians,

As we continue to watch the news and follow the information coming out from the CDC, it does not seem that the current situation with CoronaVirus is improving nationwide or worldwide. Without over-reacting, we continue to have conversations so our district is prepared should the need to close our schools arise. Our goal is to keep the teaching and learning moving forward without having significant breaks in instruction and without needing to make up school days. We are equipped to provide a valuable learning experience for students through a virtual teaching/learning environment.

If we should be required to close our two high schools, we will follow a "virtual school day" schedule which will provide for the necessary four hours of instruction plus additional independent learning activities/homework. Each class will "meet" for 30 minutes with 3 minutes between periods. The expectation for students is that they are doing the work for each subject during the regular period times on the schedule below. Teachers and students will go through the regular day, periods 1-9. All teachers will be available during their regular teaching periods to answer questions on-line. Student attendance will be tracked electronically through Schoology and on-line assignment completion. Our goal is to keep the teaching and learning moving forward.

Our teachers are currently preparing additional virtual learning methodologies and will do everything they can to promote a positive learning experience should the need arise.

In closing, please understand that our goal is not to alarm anyone but rather to be prepared should we need to close. Of course, the plans we are developing are plans we hope we never need to use.

As always, thank you for your ongoing support and stay healthy!

Best regards,

Beverly MacKay
Superintendent of Schools
