

Release Form for Publishing Student Work on the Internet

Dear Parents / Guardians:

M.S.A.D. No. 75 schools utilize the latest technologies to support student learning needs. As part of the many technology applications integrated across the curriculum, we publish a variety of teacher and student projects on the Internet. Examples of student work that might be published on the world wide web include but are not limited to: a story, a blog post, a photograph of a project or artwork, a podcast, a science or research project, a collaborative project completed with other students who live locally or internationally, as well as photographs of students at work. We think this is an enriching, engaging opportunity for students as others around the world with Internet access will be able to view their work. Should your child's work or photograph be chosen for publication, your signature below acknowledges permission for such work to be published.

Elementary students will have only their first name and the name of the school included with any work or photographs published on the Internet.

Middle school and high school students will have only their first name, their grade level / team, and the name of the school included with any work or photographs.

We need your permission to publish your child's work. If at anytime you would like to revoke your permission, please send a written letter to the school as notification that your child's work and photograph can no longer be published on the Internet.

Permission Form - Under 18 (please print)

Please place a check in a box below to indicate your choice for having your child's work published on the Internet.

Williams Cone School
