

## Seminar in Teaching & Learning Program Goal

Created for both transfer and current H-F students, Seminar in Teaching & Learning is a community of learners. Students, teachers, and peer leaders work with one another in large and small group situations — both in the classroom and in our state-of-the-art Teaching & Learning Center — to improve academic performance, develop a sense of cognitive self-awareness, hone critical thinking skills, develop a sense of self-awareness and, ultimately, become active participants in Homewood-Flossmoor Community High School.

## Seminar in Teaching & Learning Course Description

Designed to challenge incoming and current H-F students to achieve their fullest academic potential, Seminar in Teaching & Learning

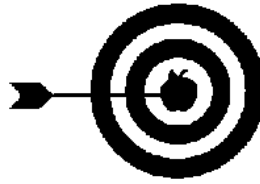

provides academic, personal, and social support to develop skills that will help acclimate students into the Homewood-Flossmoor High

School culture. In addition to classroom instruction in organizational, study, and test-taking skills, students benefit from one-on-one and small group tutoring and daily homework assistance.

## Seminar Course Goals

The aim of Seminar in Teaching & Learning is for students to...

- Develop realistic personal achievement goals.
- Hone study skills.

- Utilize available tutoring assistance.
- Become involved in at least one H-F extracurricular offering.
- Identify individual preferred learning style.
- Utilize multiple intelligences.
- Engage in problem-solving activities.
- Engage in multiple levels of inductive inquiry.
- Identify intrapersonal and interpersonal qualities.
- Develop leadership abilities and teambuilding strategies.
- Demonstrate an awareness of personal responsibility to oneself and society.
- Develop self-esteem.

## Seminar Student Testimonials

Students share how Seminar in Teaching & Learning has assisted their quest for success:

- "Learning how to study"
- "Getting help with my math and passing geometry"
- "Getting involved in after school activities and trying out for track"
- "Bringing up my GPA to a 3.0"
- "Finding out about how I learn best"
- "Passing chemistry"
- "Getting to know new people and getting better grades"
- "Earning an 'A' in American Lit."
- "Making new friends and learning the system"
